The new Pure 312.

Your elegant companions in natural hearing.

Discussing the latest exhibition with friends, gushing about a delightful classical concert or an exquisite ballet performance – Signia's Pure™ 312 lets you share all of life's beautiful moments and immerses you in them, completely. With Pure 312, you can enjoy the most natural sound experience with superior connectivity for audio streaming from your smartphone and TV.

Maximum discretion

Pure sophistication in a small package: With its small, elegant housing Signia's Pure 312 sits unobtrusively behind your ear. It can be remotely controlled via your smartphone for a maximum of convenience and discretion.

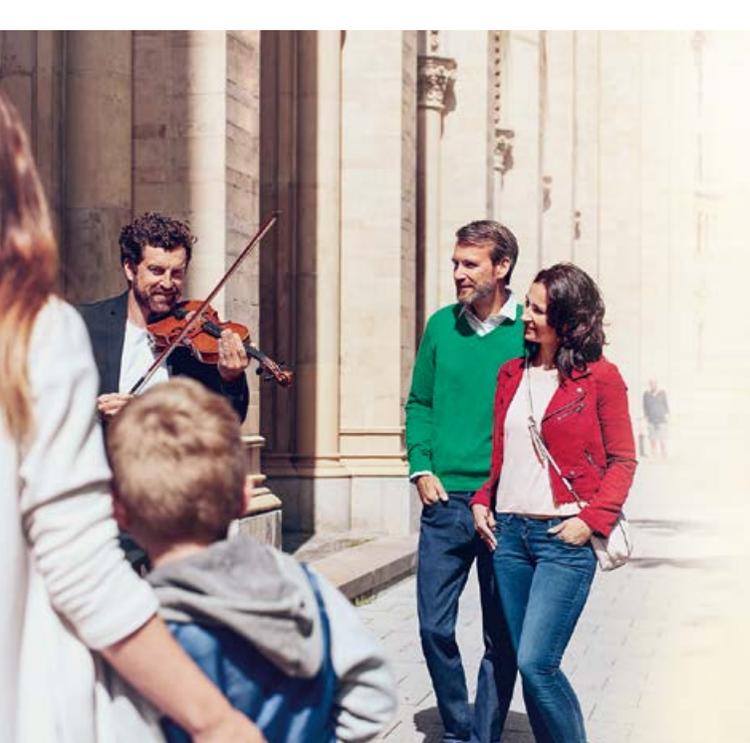

Fully featured

Packed with sophisticated, state-of-the-art technology, Pure 312 from Signia offers the most natural sound and highest hearing performance as well as superior connectivity.

For all levels of hearing loss

Mild, moderate, severe or profound hearing loss, Pure 312 tackles all these challenges and gives you back the natural sound of life.

Hear the sound of your own voice as nature intended.

From vividly discussing art after visiting a museum to enjoying the excitement of a new city with your loved ones, Signia's Pure 312 lets you delight in the world of sound.

It combines the natural sound of your own voice perfectly with all surrounding sounds. This lets you enjoy the most natural hearing experience and highest hearing performance, even when discovering the splendor of new destinations.

Please note:

Features may vary depending on the configuration of the individual hearing aid. Your hearing care professional will be happy to assist you.

Enjoy sound in perfect harmony.

Hearing your own voice

Many hearing aid users do not like the sound of their own voice as it sounds loud and unnatural. As a world's first, Signia's Pure 312 solves this: Its **OVP™ (Own Voice Processing)** provides you with a natural sounding own voice combined with optimal hearing of all other sounds for the most pleasant, natural listening experience.

Speech in noise

Thanks to its **Speech Quality**, Signia's Pure 312 enables you to hear speech clearly in all situations through advanced noise suppression technologies. This makes it easier for you to understand your conversation partner, even in very noisy environments such as a restaurant or a conference.

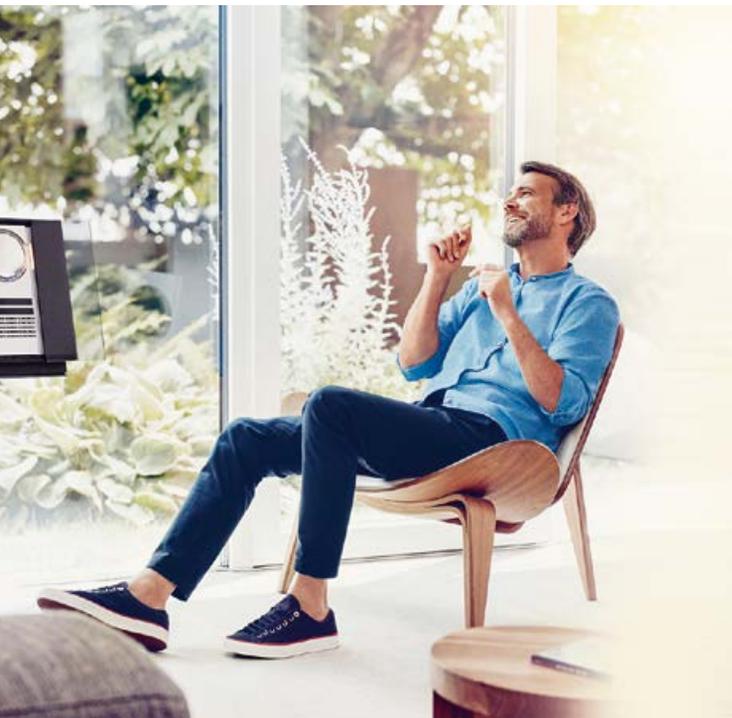

Conversation while moving

The **3D Classifier** of Pure 312 provides advanced automatic control in all situations to let you enjoy the highest hearing performance. To deliver optimal hearing even when moving, the hearing aid settings are automatically adjusted based on the **myControl App's motion data**.

Crystal clear sound

Pure 312's **Sound Clarity** offers the most natural, lifelike sound in all environments. This lets you enjoy crystal clear sound, even in the loudest environments.

Connect to the ease of control.

myControl App

StreamLine TV

StreamLine Mic

miniPocket

Enjoy direct streaming of phone calls, music, and TV.

Stream your favorite opera straight into your ears, discreetly adjust the volume to suit your wishes while watching a new production of a theater classic on TV or hear the fastest route to the most famous sights from your navigation app - all you need is a smartphone.

Via the myControl App*, Pure 312 from Signia offers you supreme connectivity for audio streaming from various sources, as well as remote control - all at your fingertips.

Telephone

Stream phone calls directly from your Apple smartphone (and with StreamLine Mic from your Android smartphone) to your hearing aids for complete convenience.

Music

Listen to your favorite music streamed directly into your hearing aids from your Apple device (and with StreamLine Mic from your Android device) for an outstanding sound experience.

TV

With StreamLine TV, audio from your television can be fed directly into your hearing aids. You can easily start streaming and adjust the volume by using myControl App.

Remote control

The myControl App lets you change Pure 312's settings remotely and personalize your hearing aids to suit your individual preferences.

And if you don't have a smartphone, the miniPocket™ also provides highly convenient remote control.
